Style / Colors

FRA Platform colors are a mix of white, grey shades and teal as the primary accent color. Destructive actions should use red. Usege of other colors are on a case-by-case basis.

Text colors

	Headline #111111		Body #333333		Secondary #666666		Tertiary #999999
---	----------------------------	---	------------------------	--	-----------------------------	---	----------------------------

UI colors

	Teal (accent) #0098A6		Red #D0021B		Orange #F58020		Yellow #FFBB33		Green #66BB66
	Magenta #BF00AF		Editing #A5ABB0		Border #D5D5D5		Background #F5F5F5		White #FFFFFF

Style / Typography

FRA Platform uses Helvetica Neue for all text. Bold for headings, regular for body text. Text should have enough room to breathe, so choose a line-height that doesn't make the text feel too tight. Title and labels are always written in sentence case!

Text styles	Weight	Size	Line
Title	700	24px	30px
Headline	700	20px	24px
Subhead	700	16px	20px
Body	400	14px	20px
Body small	400	13px	18px
Caption 1	400	12px	16px
Caption 2	400	11px	14px

Style / Icons

For a consistent visual look FRA Platform uses Nucleo* Glyph icon set. For UI elements the 16px size is used and for placeholder illustrations, bigger sizes. Icons should be white or opaque black, colored icons should be used sparingly. Avoid drawing your own icons, as they might have different visual style and thus break the consistency.

Layout / Principles

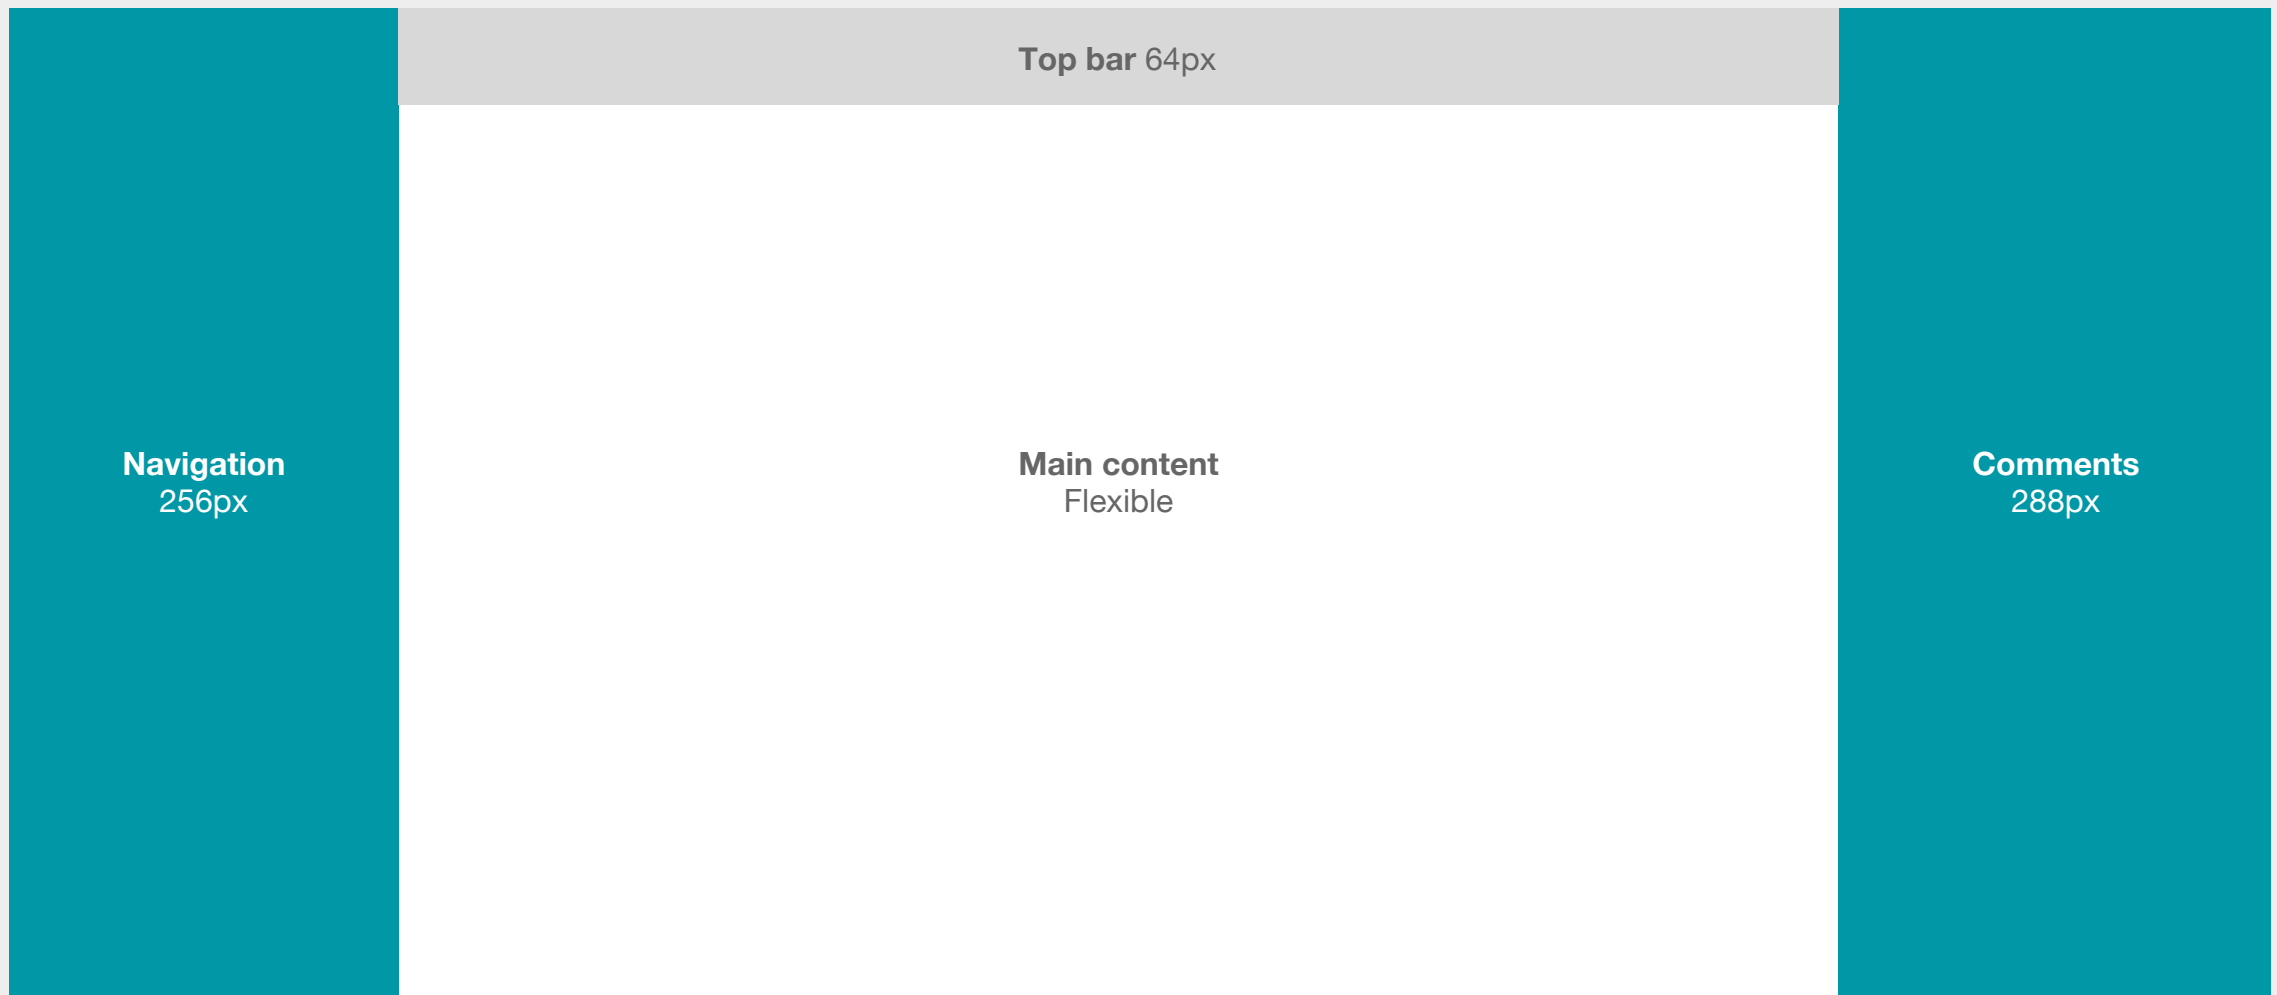

FRA Platform is an information heavy tool with a lot of content and features. The platform follows the following layout principles to make it as clear as possible for the user.

1. Design with a small laptop screen in mind
2. Panels and sidebars should be hideable to maximize the screen estate for the main content area
3. Align elements using a grid
4. Utilize the 8 point grid for a consistent spacing*
5. Components that belong together should be grouped together surrounded by enough white space
6. Actionable components should be close to the element they affect
7. Don't hide elements/actions/content unless you really need to

* <https://spec.fm/specifics/8-pt-grid>

Layout / Structure

FRA Platform uses a three column layout where the left and right panels are fixed width and hideable and the main content area fills the remaining space. The main toolbar should always be shown and should always be fixed to the top.
